Dear Hiring Manager,

I am writing to express my interest in potential opportunities within the IT and programming field. I am currently pursuing a diploma in IT Programming at Nova Scotia Community College and have recently completed the IT Analyst Program through NPower Canada.

Prior to transitioning into the tech industry, I graduated with a Bachelor's degree in Criminal Law. My legal background has equipped me with strong analytical thinking, attention to detail, and problem-solving skills - all of which are highly transferable to software development and IT support.

My passion for technology and computers began in childhood and has grown into a career path I'm deeply committed to. Throughout my studies, I've developed proficiency in Java, C, HTML, CSS, and JavaScript, as well as tools like IntelliJ IDEA, Visual Studio Code, and VMware. I have completed various projects that showcase both my technical knowledge and my ability to learn and adapt quickly.

I am a highly motivated, bilingual (English and Arabic) individual with a strong commitment to professional growth. I look forward to the opportunity to contribute my skills and enthusiasm to a dynamic IT team.

Esraa Abdelmoein - Cover Letter

Thank you for considering my application. I would welcome the chance to speak further and can be reached at any time via email or phone.

Sincerely,

Esraa Abdelmoein
